Longing Special 2023/2024

Atmosphere. Spirit. A place of longing.

Clean air to breathe, an old park and vast forests, a lake fed by seven springs. How the evening sun sparks fly, the old brick walls glow, the lake and plane trees are bathed in a golden glow - an elegance in perfection. Here, nature lets us participate so gently and unagitatedly: in ourselves. And then you feel it, the inner peace, how it fills you and envelops you; like a favourite piece of clothing that you no longer want to take off.

For 23 years, the host family Stober has been accompanying this place shortly behind Berlin, which bridges the gap from Germanic settlement to resistance against the Third Reich and lived sustainability. The Landgut Stober is a place of change, of development. A magical place that inspires guests to form new thoughts and visions and welcomes all who are drawn to the estate's unagitated uniqueness.

10% discount* on overnight stays from Nov. 23 until Feb. 24

The Landgut Stober, awarded as Europe's greenest hotel in 2017 and 2021, has 428 beds. Brandenburg's first certified organic hotel offers the perfect place for rest and relaxation. Mainly using natural and renewable materials, 300 rooms have been designed. The wood still exudes the warmth of the forest. The furnishings of the organic hotel and the rooms reflect the love of nature; just like the organic breakfast & our cuisine pays respect to animal welfare, quality & regionality.

Overnight stays from 149,00 Euro minus 10% discount*
